TEMPEST SUMMARY

What if the universe really is kind?

We meet Miranda Wilkinson on the night that she's going to die. That's her plan, at least. In Miranda's mind, her life ended five years ago -- she's just going to make it official tonight. What she hadn't planned on, however, is seeing an unearthly glow from a mysterious antique teapot in her basement...

A second Miranda Wilkinson has no plans to end her life tonight. She'd like to throttle her rebellious son on occasion, true. And she sure wouldn't mind a little help from her self-absorbed husband. But she is minding her own business, asleep in her own bed, when she suddenly finds herself standing in her basement. At least she thinks it's her basement...

With a little help from the mysterious teapot, our two Mirandas swap lives, swap dimensions. And without realizing it, they swap husbands. What could go wrong?

As it turns out, everything goes wrong. But then again, maybe - just maybe - it all goes right. In a beautiful old home on an isolated island, two lives intertwine, leaving both of them shaken but whole. One Miranda discovers the artist buried deep within. The other Miranda finds forgiveness buried just as deep. One Miranda bridges a chasm between herself and her angry son. The other Miranda finds a peace that she didn't think possible.

Is the universe really kind? We think so.
